*Associate Superintendent*

March 26, 2008

To Corona del Sol High School Parents and Guardians:

Corona del Sol students and staff are invited to participate in an anonymous health survey conducted by Dr. Adams, ASU professor and Corona parent. This voluntary survey will compare Corona staff and student health symptoms to health symptoms experienced by staff and students at another Tempe Union high school. The survey will be administered the week of March 31, 2008, at both Corona and the control group high school. Completed surveys will be placed in a sealed envelope and secured in the principal's office prior to delivery to Dr. Adams.

In an effort to more quickly improve Corona's air quality, engineers have designed a plan that will bring in additional fresh air. While not eliminating the need to ultimately replace the HVAC system, this plan will improve the air quality by bringing fresh air into the building. This work will be completed this summer.

Along with the HVAC system's eventual replacement, removal of classroom carpeting in affected areas will begin prior to the end of the school year. The remaining carpet will be removed this summer. Funding will, of course, dictate replacement floor covering.

We will continue to post all communications on the District and the school web sites as well as updating the PTO and Site Council. If you would like to receive future communications by e-mail, please send your contact information to the principal, Mrs. Susan Edwards.

Sincerely,

Steve Adolph  
Superintendent
